

Premium Australian Seafood

Capability Statement

Mendolia Seafoods was first established in 1960, then known as the Mendolia Fishing Company, then the Fremantle Sardine Company, as a sardine processor where none had previously existed in Australia.

During these early days, the Mendolia family become what is considered to be the world's first sardine fillet processors.

Fast forward to 2017, the company had built a new purpose-built facility and head office in O'Connor, Western Australia, with first productions commencing in January 2018.

The new facilities were built with the objective of meeting all existing and any new regulatory requirements. Mendolia Seafoods manufacturing plant utilizes the latest and most modern of equipment.
